Not a hollandbio member yet?

If you are not a member of hollandbio, register now. Membership has many benefits, so contact the hollandbio member benefits team at business.solutions@hollandbio.nl for more information.

About Avantor®

At Avantor®, we set science in motion by enabling innovation across the life sciences and technology industries with the highest-quality products, services and solutions to support every step of the scientific journey. By combining our comprehensive portfolio, productivity-enhancing technology and global manufacturing and distribution capabilities, we are a proven partner in highly regulated environments.

Avantor® offers many additional advantages:

- Virtual warehousing, stock reservation and batch management
- Innovative new products launched every year
- Daily deliveries throughout the Netherlands
- Supplier management and third-party procurement
- Electronic ordering and invoicing
- On-site services
- Equipment and instrument calibration and validation
- Change control processes
- Custom production and packaging
- One solution (consolidation and savings)
- Stockroom systems
- Cleanroom products

Join the Avantor® Purchasing Program and we will:

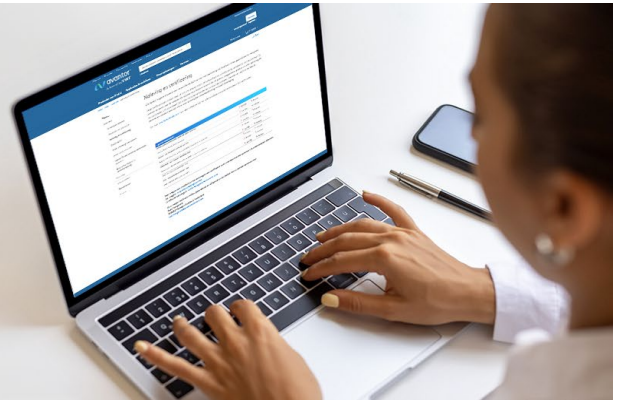

- Analyze your current laboratory spending and identify areas for immediate savings.
- Identify possible product substitutions and organize trials and evaluations.

Compliance & certification

Avantor® is certified in several ISO standards for quality, environment, health and safety.

These certifications are part of our commitment to excellence and continuous quality improvement. They are the foundation for the value we deliver to our customers through every process, program, product and solution we offer. This ensures that our management systems, manufacturing processes, services and documented procedures meet all global standardization and quality assurance requirements.
