

Hollandbio Partner for Laboratory Equipment

Unlock More Benefits from Your Lab Equipment Investments

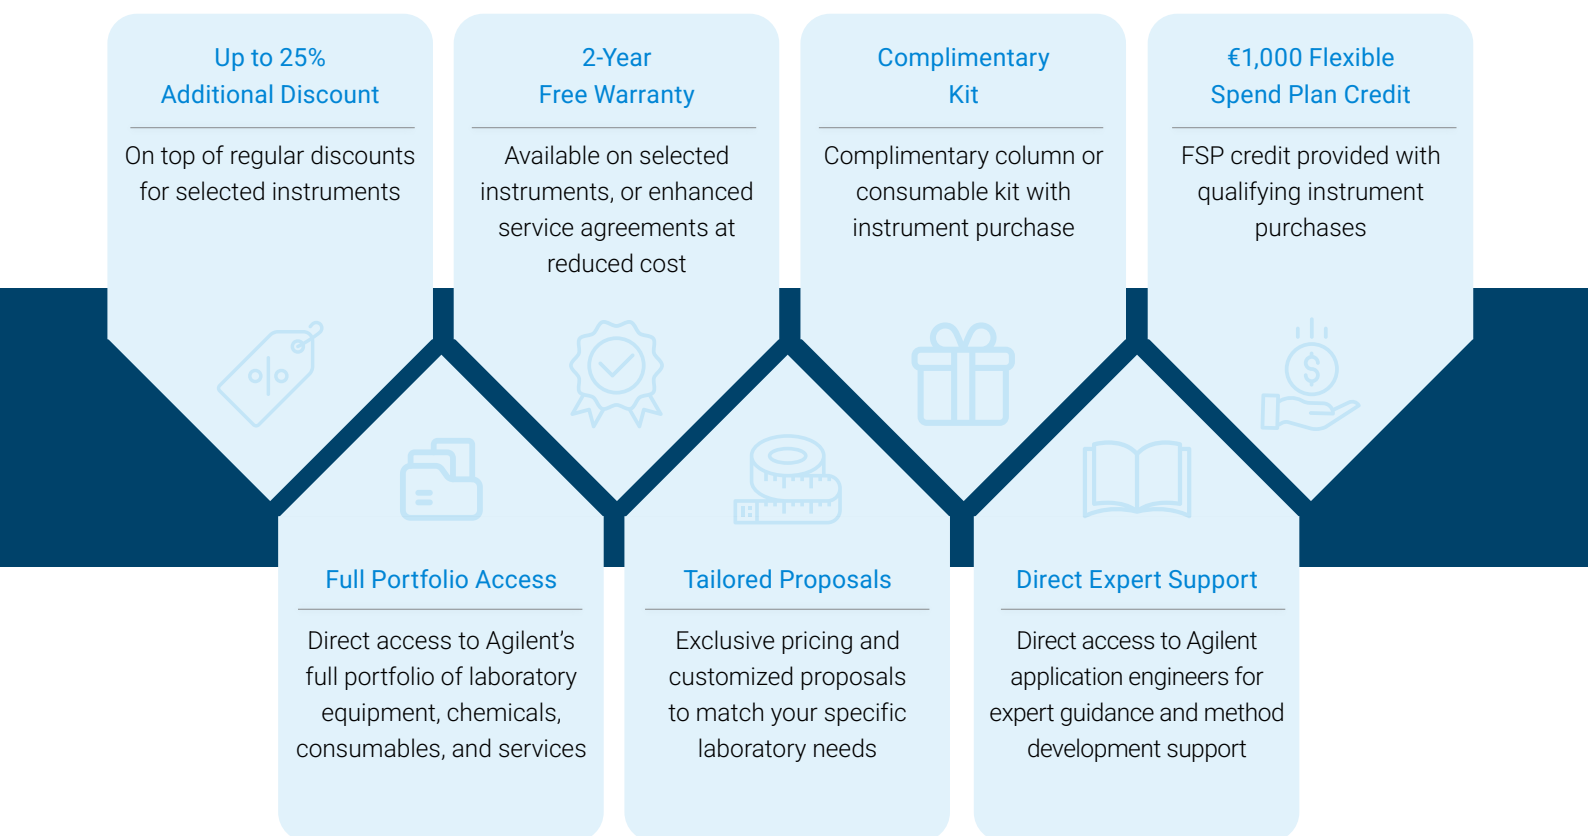

As a global leader in analytical laboratory technologies, Agilent delivers trusted, high-quality solutions across the full laboratory workflow. Through its partnership with Hollandbio, Agilent extends these capabilities to support the life sciences community with enhanced access and tailored benefits.

With more than 50 years of expertise, Agilent provides advanced instruments, software, and consumables—supported by dedicated teams of knowledgeable specialists. Our technologies are designed to address complex analytical challenges and enable reliable, high-quality results.

From early-stage research and drug discovery to development, manufacturing, and quality control, Agilent offers integrated, end-to-end solutions that help laboratories improve productivity, drive efficiency, and accelerate time to market.

Your Benefits as a Hollandbio Member:

Through this partnership, Hollandbio members* can take advantage of exclusive Agilent offers and expert support:

* Benefits are subject to eligibility; customers with existing pricing agreements are not eligible, and customers with prior purchase history may be eligible for a modified future offering. Discounts and benefits are subject to each Participant's acceptance of Agilent Terms of Sales and will be determined based on each Participant's eligibility status.

To participate, please contact:

Allocate The Funds You Need To Support Your Lab

Agilent Flexible Spend plan

A simple, flexible way to meet your purchasing needs

Isn't it frustrating when you have to rush to spend your funds from an expiring budget? Now you have a smarter option: The Agilent Flexible Spend plan. It enables you to allocate funds in a flexible spending account that you can use to buy Agilent selected services, parts and consumables *right when you need them*.

Increase productivity and maximize instrument uptime

The Flexible Spend plan simplifies your purchasing, planning, and budgeting by:

- Allowing you to use funds for Agilent services, parts and consumables, covering all major instrument brands, up to three years.
- Eliminating the need to issue POs for every purchase
- Providing a seamless flow of pricing and discounts
- Enabling ease of tracking your balance and account activity through an online portal
- Offering monthly, quarterly, or semi-annual billing options*

Maximize the return on your instrument investment

Regular instrument maintenance—along with using the appropriate consumables and supplies for your application—helps you reduce costly downtime. The Flexible Spend plan enables you to spend money on what you need, when you need it. So you can maintain optimal instrument performance without jeopardizing your budget.

*Where available

Maximize your budget... and your lab's productivity.
Contact your Agilent representative about the Agilent Flexible Spend plan.

Agilent
CrossLab
From Insight to Outcome

Here's how it works:

- Contact your Agilent representative to sign up for a Flexible Spend plan to allocate funds for future use
- Provide your FSP account number to order by phone, e-mail, or through the Agilent online store
- Receive goods and services

Sustainable Lab Solutions

Our partnership with My Green Lab

To support scientists like you to achieve your lab sustainability goals, Agilent is the first Transformative Level sponsor of My Green Lab—a nonprofit organization dedicated to building a global culture of sustainability in science.

Agilent is a sponsor of the My Green Lab Certification program, which is considered the gold standard for laboratory sustainability best practices. We are working to ensure our onsite customer demonstration laboratories around the world are certified “Green” by implementing sustainable strategies into our everyday testing and research—making key progress in our journey toward net zero.

Our partnership with My Green Lab also includes achieving My Green Lab ACT Ecolabels for several of our products. These ACT (Accountability, Consistency, and Transparency) eco-nutrition labels provide customers with third-party-verified information on the environmental impact of Agilent instruments, helping you make more sustainable choices for your lab.

What are ACT labels?
